## Sundararajan Narasiman

Principal Enterprise Architect, Ex- Amazon, Ex-AWS
Email: sundar.architect@gmail.com
Mobile: 91-8870000640
Linkedin: https://www.linkedin.com/in/sundarnarasiman/
Github: https://github.com/sundarnarasiman

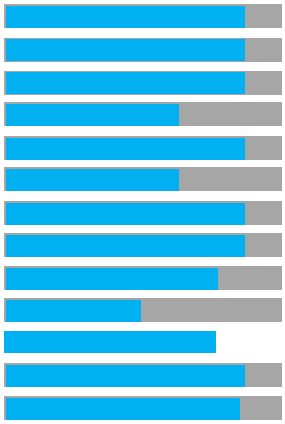
## Professional Summary

Results driven hands-on Principal Software Architect with 20+ years of experience in designing, developing and optimizing large scale software platforms. Proven track record of driving technology innovation, improving code quality and dev process hygiene and mentoring architects/engineers across org. Passionate about continuous learning and challenging the status quo.

Expertise in Cloud Native Architecture, Cloud Platform Engineering, App Modernization, Microservices, Micro Frontend, MLOps. Proven record of incubating and building from zero to one.

Proven recording of performing both breadth-role and depth-role in architecture/technology and demonstrating results. Passionate about nurturing global technology communities and recipient of Microsoft Most Valuable professional for 7 years (2008-2014). Demonstrated thought leadership through AWS public speaking, AWS open-source contribution and AWS blogs.

## Core Competencies



## Soft Skills

Technical Leadership, Cross-functional collaboration, Mentoring, Agile, Effective Communication, Adaptability, Innovation, Organizational Development, Adaptability to new Technologies

## Professional Experience

**Principal Software Engineer**

**Walmart Global Labs | Bangalore| July 2025 to Till Date**

- Building world's largest ratings & reviews platform for e-commerce

- Optimized data engineering pipeline from 18 hours to 1.5 hours for processing 3.5 TBs of review data daily resulting in $500k cost savings annually
- Optimized Cassandra database to reduce query latency by 20 ms
- Re-designed site facing APIs to improve TPS by 100
- Built an MCP server for CPU profiling / performance analysis that helped in reducing CPU utilization by 30 %
- Built an LLM based RAG solution for OPEX analysis and improvements which reduced manual efforts by 20%
- Re-engineering ratings & reviews platform on Azure Cosmos, GCP Big Query, AKS and GoLang for better scale and cost reduction

**Principal Enterprise Architect**
**Computer Age Management Services | Chennai |August 2024 to March 2025**

- Architected and built a GenAI based knowledge comprehension tool to solve the problems of 19+ AMCs across India. Solution relied on RAG based knowledge retrieval from Google Gemini LLM
- Improved developer productivity by integrating hosted OLAMA LLM models into IDEs. This led to cost savings of 80% compared to licensed code assist tools
- Performed periodic code reviews and ensured all the critical NFR gaps are addressed in the code before UAT
- Architected and built strategic Cloud Foundation on GCP for futuristic Mutual Fund RTA platform for India market in 5 months, complying with SEBI regulations
- Practiced Domain Driven Design by de-composing a legacy monolith to 30+ Microservices for better manageability and scale
- Conceptualized and led API rationalization exercise to optimize core APIs from 130 to 75 and completed design of the same
- Conceptualized, designed, built and evangelized gRPC and graphQL based API reference implementations
- Designed and built a near real-time reporting solution leveraging BiqQuery, DataFlow, Oracle Golden Gate etc.
- Conceptualized, designed and delivered MVP on purpose built polyglot databases with projected cost savings of 20% annually.
- Released 1st MVP of new generation MF core APIs supporting 1000 TPS for MF Industry
- Unblocked engineering teams by building re-usable components (11), framework libraries (9), platform services (15)
- Performed design-reviews and code reviews
- Mentored and coached staff architects and staff engineers

**Principal DevAx Specialist SA | App Modernization**
**Amazon Development Center | Chennai |February 2021 to July 2024**

- As a founding member of DevAx SA team in India, customized and executed strategic developer programs, leading to an influential revenue generation of 2 million USD in the first year
- Supported a leading US based FinTech to modernize a legacy monolith to Microservices resulting in DORA metrics improvement by 50%
- Unblocked a $300k USD opportunity with a leading POS systems provider in India by delivering a structured dev focused multi-week enablement program
- Supported an API modernization/scaling effort for a large payment gateway provider in India and scaled TPS from 300 to 1000

- Built developer AWS re-usable accelerators and pipeline to unblock an app mod opportunity ($400k USD) with a large logistics provider in India
- Part of Technical Field Community for App Mod and influenced modernization opportunities across Enterprise, ISV and Startup segments for App Mod opportunities worth 750K USD through specialist requests
- Hired, mentored and built a team of four Developer Solution Architects
- Delivered several Tech Talks and developer evangelism sessions across forums such as AWS re: Invent, AWS India Summit & Open Source For You
- Open-Sourced 10+ Github repositories in official AWS samples covering containers, serverless, modern architectures, Devops and AWS IoT

**Senior Partner Solutions Architect**
**Amazon Web Services | Chennai |March 2017 to Feb 2021**

- Played an anchor Senior Partner SA role for a leading GSI partner based out of India and contributed to the growth of AWS partnership by 4x from 75 million USD to 330 million USD between 2017 and 2021
- Incubated and bootstrapped Insurance Industry vertical partnership (Enablement, Delivery, Innovation and new AWS services adoption) and demonstrated growth of zero to 75 million in 4 years timeframe
- Conceptualized and led launch partner program for AWS Copilot from its beta stage targeting five GSI partners, leading to 6/36 PRFs adopted in product and a joint PR exercise between partner organizations and AWS
- Conceptualized and led mass enablement for a leading GSI partner covering 5000+ associates, leading to successful completion of 900+ AWS certifications by partner associates
- Spearheaded and modernized a legacy food ordering platform (of a leading GSI partner) using AWS serverless stack resulting in 90% infra cost savings for end customer
- Conceptualized and executed innovative industry solutions drive and joint GTM exercise for a leading GSI partner and create a joint opportunity pipeline of $20 million USD across BFSI, Manufacturing and Retail verticals
- Designed and built a cloud-based video monitoring solution for home automation giants by leveraging AWS IoT stack which reduced infrastructure costs by 25%
- Championed AWS IOT adoption across 14 GSIs and created joint AWS opportunity pipeline of 2 million USD
- Supported GSI partner to achieve 3 major competencies such as Migration & Modernization, Data & AI and IoT competency
- Collaborated with partner and hosted four major platforms on AWS MarketPlace such as OrderServ, OneFacility, InCatalyst, CogniSME which led to new revenue streams

**Sr. Advanced Systems Engineer**
**Honeywell Technology Solutions | Madurai/Bangalore |Oct 2014 to Feb 2017**

- Modernized a legacy home automation product in MS Azure and supported a achieved a TPS of 1000
- Transformed home automation product into a global platform and scaled to 3 markets (US, India and Europe) with a CAGR of 20%
- Designed and built first version of Honeywell IOT Device Management platform on MS Azure which supported 5000 devices in 1st year
- Achieved NFR coverage of > 90% by ensuring 'ility' scorecards are followed & tracked throughout NPI life cycle

**Sr. Architect - Technology**
**Cognizant Tech Solutions | Chennai |Aug 2006 to Sep 2014**

- Incubated MS Azure, built accelerators and delivered mission critical projects
- Architected and built couple of mission critical projects for leading insurers using Enterprise Architecture best practices

**IT Analyst**
**Tata Consultancy Services | Chennai |Feb 2001 to July 2005**

- Performed functional enhancements of core underwriting engine of leading life insurers in USA
- Bug fixes of core mainframe COBOL modules and unit testing

## Education

- Professional Certificate in Product Management from SP Jain Institute of Management (Nov 2023 – May 2024)
- Bachelor of Engineering in Instrumentation & Control (1996-2000)
  from Madurai Kamaraj University with 70% CGPA
- H.S.C from Tamilnadu Education Bord (1994-1995) with 87% CGPA
- S.S.L.C from Tamilnadu Education Bord (1992-1993) with 77% CGPA

## Certifications

- AWS Certified Developer Associate
- AWS Certified Solution Architect Associate
- AWS Certified SysOps Associate
- AWS Certified DevOps Engineer – Professional
- AWS Certified Solution Architect – Professional
- Microsoft Certified Azure Developer
- Certified Scrum Master
- Microsoft Certified Application Developer (MCAD)

## Technical Skills

Programming Languages: Java, Python, C#, NodeJs , GoLang
Frameworks & Libraries: React, .NET core. ASP.NET Core, ASP.NET Web API, PyTorch, ScikitLearn, AWS SageMaker
Cloud & DevOps: AWS, GCP, Docker, Kubernetes, CI/CD
Databases: MySQL, Redis, AWS DynamoDB, AWS Document DB, AWS KeySpaces
AI/ML: Deep Learning, NLP, Reinforcement Learning, Computer Vision, FlanT5, Prompt Engg
Architectural Patterns: Microservices, Event-Driven Architecture, Serverless, SOA
Data Analysis Tools: Pandas, NumPy, MatPlotLib
CNCF Stack: Isio, Prometheus, Graffana
AWS Services: App Mesh, RDS, Transcribe, Polly, Lex, Translate, Glue, Kinesis, API Gateway, StepFunctions, Lambda
GCP Services: GKE, Functions, Gemini, Apigee

## Awards

- Awarded by Microsoft as the **Most Valuable Professional** in Microsoft SharePoint for 7 years from 2008 to 2014 for outstanding contributions to Global Technology Community
- Awarded by Microsoft as **Microsoft Community Contributor** in 2014
- Awarded by DZone as **Most Valuable Blogger** since 2014
